SEEKING POSITION

Seeking a coaching position in competitive soccer club in the U.S. or position as Technical Director. Experienced in working with youth players of all ages and in setting up developmental programs. Also experienced in directing coaches clinics on how to develop training sessions.

BACKGROUND

Football, or soccer as preferred in the United States, has been an integral part of my life since I can remember. I have always been an enthusiastic soccer player all my life, played for my local team and my school up until the age of sixteen Then I moved into amateur up to semi-professional soccer after that. Native of Walsall, England. Attended Walsall Arts and Technology College. Currently living in England.

I have been coaching the past five (5) years working back in England with the Football Association and two years with Major League Soccer camps with the Chicago Fire and Chivas USA in California. I have been also worked with the East Orange Soccer Club in Florida

QUALIFICATIONS

I've earned my Level 1 and 2 (USSF C) coaching badges for soccer in England with the English Football Association, and also aim to progress to my UEFA B license and further. I have also undertaken other qualifications such as emergency first aid, child protection strength based coaching, and I am also a qualified fitness instructor.

Soccer is my main interest. I have had the opportunity to play under experienced and quality coaches and also through gaining coaching experience through ex-professional players who now coach and being able to work along side them while I went through my badges. I have worked with both American youth soccer, competitive youth soccer and elite teams being a program

manager and coach in putting together development programs for the clubs I've worked with. I feel I have the knowledge and understanding along with strength based coaching methods to help and educate kids across the United States.

It is my aim to instill a new level of playing and enjoyment of the game for every player I coach. I would also hope to continue the soccer development of all the children I come into contact with through the experience I have gained working alongside all the trainers in the U.S. and in England, with whom I have come into contact.
